

Example 1: $\alpha = 7/8 \, 2\pi$, so $m = 1$ and $\beta = 1/8 \, 2\pi$

Example 2: $\alpha = 4/9 \, 2\pi$, so $m = 2$ and $\beta = 1/9 \, 2\pi$

Example 3: $\alpha = 4/15 \, 2\pi$, so $m = 3$ and $\beta = 3/15 \, 2\pi$

Example 4: $\alpha = 4/31 \, 2\pi$, so $m = 7$ and $\beta = 3/31 \, 2\pi$
